

Are you prepared when it comes to CLOUD security? Many organizations are not.

The cloud creates new paradigms for the technologies that support the business. These new paradigms also change how those technologies are adopted, managed, and governed. **When entire datacenters can be virtually torn down and rebuilt with one line of code executed by an unattended process, we have to rethink traditional approaches.**

WE CAN HELP!

Azure Governance Assessment

- Business Risks – Document evolving business risks and the business' tolerance for risk, based on data classification and application criticality
- Policy & Compliance – Convert Risk decisions into policy statements to establish cloud adoption boundaries
- Establish processes to monitor violations and adherence to corporate policies
- The workshop uses the Azure Cloud Adoption Framework to assess & provide recommendations on the following areas of Cloud Management

COST MANAGEMENT	SECURITY BASELINE	RESOURCE CONSISTENCY	IDENTITY BASELINE	DEPLOYMENT ACCELERATION
Evaluate & monitor costs, limit IT spend, scale to meet need, create cost accountability	Ensure compliance with IT Security requirements by applying a security baseline to all adoption efforts	Ensure consistency in resource configuration. Enforce practices for on-boarding, recovery & discoverability	Ensure the baseline for identity & access are enforced by consistently applying role definitions & assignments	Accelerate deployment through centralization, consistency & standardization across deployment templates

KloudSifu – Kloudynets IP, is a platform which helps organization enforce Governance, limit spend, and enhance security using workflows, automated deployments through Blueprints, and much more

WHY KLOUDYNET?

When it comes to the Cloud, you need an experienced partner.

Kloudynet Technologies is a Microsoft Silver Partner. We are subject experts in the security space with a special focus on Azure & M365. We draw our strength from security certified consultants, strong experience delivering workshops, POCs and projects for large enterprise customers across South East Asia, and a new 24X7 Managed Services Centre to help you monitor and protect your organization round the clock! We are proud to have partnered with companies such as Petronas, Maybank, Jurong Port, MISC and Celcom on various Security projects, and are always striving to deliver cutting edge solutions at great value.
