

MICROSOFT AZURE SERVERLESS – Workshop*

Are your Applications optimized for running on the Cloud?

*Workshop for 10-25 attendees (remotely)

Why go Serverless?

- Automated and flexible scaling based on your workload volume, keeping the focus on adding value instead of managing infrastructure
- Integrated programming model based on triggers and bindings that help you respond to events and seamlessly connect to other services
- End-to-end development experience, from building and debugging to deploying and monitoring with integrated tools and built-in DevOps capabilities

Microsoft Azure Serverless – Workshop (1 Day)

- Understand the meaning & power of Serverless –discover how you can build applications faster, lower cost of operations & free up developer time from Architecture design & maintenance & only focus on logic development
- Learn how to use a Azure Functions that independently scale and break down business logic to discrete components, use Azure Functions to accurately detect license plates in car images at scale, provision and use Cosmos DB as a highly available NoSQL data store for processed data, create a Logic App that contains a workflow to export processed license plates and conditionally send alerts based on successful or unsuccessful operation
- Use App Insights to monitor the serverless topology, observing how well the solution scales when under load, and implement a Continuous Deployment DevOps process to automatically publish changes to Function Apps.

1: FUNDAMENTALS

Consultant will kick off the engagement, conduct key Serverless capability workshop on Microsoft platform, and perform lab preparation

2: HANDS ON LABS

3-4 lab activities using Azure Functions, Logic Apps, Cosmos DB & Dev Ops

WHY KLOUDYNET?

When it comes to application modernization on the Cloud, you need an experienced partner.

kloudynet Technologies is a Microsoft Silver Partner in app dev. We have certified Azure developers and consultants working with customers in the region with their application modernization journeys. Our developers have years of experience in software development, workshop delivery and also have deep expertise in Azure Serverless

We are proud to have partnered with companies such as PETRONAS, AXIATA, Maybank, Jurong Port, MISC and CELCOM on various App Modernization Projects, and are always striving to deliver cutting edge solutions at great value.
