# Windows Virtual Desktop

Is your productivity impacted due to covid-19 pandemic and work-from-home policy?

## Challenges

- Physical network capacity to support thousands of concurrent VPN connected users
- Physical compute capacity to service virtual users
- Physical security and governance on how to manage and audit a distributed workforce

## WVD Benefits

- You only manage only the golden image; rest is managed by Microsoft!
- Access your desktop from any location and any device
- WVD gives you the only multi-session Windows 10 experience
- Allows you to virtualize both Full desktops and RemoteApps
- WVD will support Windows 7
- Auto Scalable using Azure Automation
- Optimized for O365 proplus services such as Outlook, OneDrive and Teams
- AAD Integration - MFA and conditional access
- Intune Modern Management Integration
- Affordable. Modern GPU powered virtual desktops for workloads like CAD, Gaming and Simulation
- Support for Citrix and VMWare Horizon Cloud

## Pre-requisites

- Entitled for licensing
- Azure Subscription
- ADConnect Syncing identities to AAD
- Number of virtual desktops required
- Optional: On-premise connectivity Express Route or Site-2-Site VPN

## Offerings

### BASIC

- WVD host pool deployment and configuration
- VM Sizing and Network planning
- O365, Teams and One-drive optimized

Timeline: 1 week

### PREMIUM

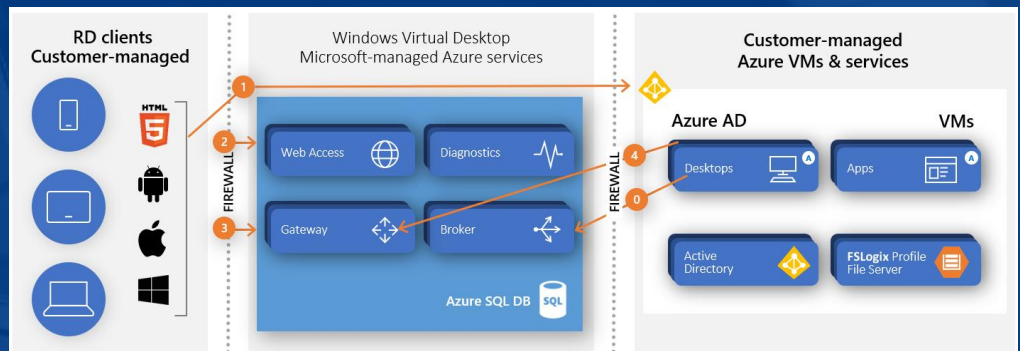

- WVD host pool deployment and configuration
- VM Sizing and Network planning
- O365, Teams and One-drive optimized
- Auto-Scaling
- On-premise integration
- VM migration using Azure Migrate
- Custom OS image support

Timeline: Depending on the solution scope

## Why kloudynet?

- Certified Microsoft Consultants
- Operations center for monitoring and support
- SME in Azure and Virtualization
